

## **LexisNexis® Enterprise Solutions and Intapp Enter Technology Agreement**

*Focus on integration between LexisOne™ business management system based on Microsoft Dynamics® AX and Intapp legal software products*

London, United Kingdom and Palo Alto, Calif., 18 December 2014 – LexisNexis® Enterprise Solutions and Intapp today announced a new technology agreement focusing on integration between LexisOne™, an enterprise-grade business management solution for law firms, powered by Microsoft Dynamics AX®; and Intapp's industry-leading legal software products. LexisOne is designed to help firms proactively manage costs, improve control, make informed decisions and optimise resources to deliver greater value to clients. Intapp products are widely recognised as the most advanced in their respective categories, across time recording, information security, application integration, new business intake and law firm conflicts management.

"Across our customer base, there is significant interest in integrating LexisOne with complementary Intapp products that law firms are using such as Intapp Time for time management and Intapp Open for new business intake," said Laura Whitehead, Head of Marketing & Partnerships, LexisNexis Enterprise Solutions. "We're pleased to extend our collaboration with Intapp to ensure that LexisOne integrates seamlessly with the complete portfolio of Intapp products for the ease and benefit of our customers."

For Intapp, the agreement with LexisNexis Enterprise Solutions follows the announcement earlier this year that the company has extended its collaboration with Microsoft.

"LexisOne demonstrates the capabilities of Microsoft Dynamics AX based systems. We're pleased to build on the momentum of our ongoing relationship with Microsoft – as well as our past collaboration with LexisNexis Enterprise Solutions – to enable compatibility with LexisOne," said Norm Mullock, Vice President, Revenue Practice, Intapp. "Many firms are already using Intapp products such as Integration Builder and Wall Builder with Lexis InterAction for CRM and Lexis Visualfiles for case management; this is a natural next step in delivering the level of integration that firms have come to expect."

### **About LexisNexis Legal & Professional**

LexisNexis Legal & Professional is a leading global provider of content and technology solutions that enables professionals in legal, corporate, tax, government, academic and non-profit organisations to make informed decisions and achieve better business outcomes. As a digital pioneer, the company was the first to bring legal and business information online with its Lexis® and Nexis® services. Today, LexisNexis Legal & Professional harnesses leading-edge technology and world-class content, to help professionals work in faster, easier and more effective ways. Through close collaboration with its customers, the company ensures organisations can leverage its solutions to reduce risk, improve productivity, increase profitability and grow their business. Part of Reed Elsevier, LexisNexis Legal & Professional serves customers in more than 100 countries with 10,000 employees worldwide.

As a leading provider of software platforms, LexisNexis® Enterprise Solutions works with customers to drive productive, efficient and reliable business decisions. Its solutions include Lexis® Visualfiles™, for case management and workflow; Lexis® InterAction®, a customer relationship management tool; and LexisOne™, an enterprise-grade business management solution powered by Microsoft Dynamics® AX.

### **About Intapp**

Intapp provides software products and services that enable law firms to thrive in an increasingly competitive marketplace by improving client service, increasing profitability, and reducing operational costs. Intapp's three practice groups (Revenue, Risk and Integration) focus on understanding existing pressures and emerging trends, and translate this knowledge into products and best practices. Intapp products allow firms to effectively align business operations with business strategy, and are recognised as the most advanced in their respective categories — time entry and recording, application integration, information security, new business intake, and law firm conflicts management.

Serving more than 525 customers, including 88% of the Am Law 100 and 80% of the Global 200, Intapp has cultivated an unparalleled record of customer success and collaborative partner relationships. Headquartered in Silicon Valley, with business operations in New York, Atlanta, London, and Sydney, Intapp offers a unique combination of legal industry expertise, technical innovation, consumer-friendly design and customer-focused business philosophy.
