Client Advising

**Client Advising**  
Working with you to transform your business

When business transformation is on the agenda so are technology investments. How can you be sure of making the right decisions to drive your business forward and deliver the best return?

LexisNexis Client Advising Services can help. We'll work with you to understand what you want to achieve, show you how our software solutions will support those ambitions and identify the challenges and approaches needed to align them. We'll continue working with you as your business strategy evolves, to ensure your software investment keeps pace with new challenges, objectives and opportunities you want to address. For us, it's a lifetime relationship.

### What are your business ambitions?

- Whatever business you're in, you can't afford to stand still.
- Competition is a fact of life - as well as long-term rivals, you face new market entrants many of whom are bringing in experience from parallel industries.
- The way customers and partners want to interact with your business will keep changing.
- Employees increasingly expect to be able to work the way they want, when they want.
- Regulation and legislation constantly evolve.

You'll also be actively pursuing opportunities to grow your business, as new markets open up, new business models emerge, or you identify candidates for a merger or acquisition.

To address these challenges and opportunities, you may need to significantly transform one or more areas of your business. Perhaps there are key processes that need to run more efficiently. Maybe you need to speed up innovation, become more agile and responsive or enhance your key business relationships.

Whatever transformation you undertake, it's almost certain to be supported by technology. You may find you need to invest in new software - in which case, you'll want to be confident it can power your business forward and deliver the best possible return on investment. On the other hand, you may have already invested in software which isn't being used to its full potential, or could be better utilised to achieve your aims.

### How can you be sure of making the best choices?

**In an ideal world what if you could talk to an impartial advisor who's familiar with your industry, understands what you want to achieve, and can help you and your business deliver on your ambitions.**

What if you had a trusted partner on your side who could help you align your technology strategy to your business strategy, so that you make the right decisions about software investments? A partner who could help you sell the solution internally? And who would do all of that at no charge - and with a long-term commitment to your organisation?

*"We have a dedicated Client Advisor with whom we communicate on a regular basis to not only help us with ongoing issues, but also to plan future CRM-related business requirements. For example, our Client Advisor has enabled us to leverage the eMarketing functionality provided by LexisNexis InterAction to the full."*

**Dave Rogers, Head of IT,  
Gresham Private Equity**

## Client Advising

### Real advice for real business

The Client Advising Team at LexisNexis Enterprise Solutions is here to help you transform your business to achieve your aims. The team provides objective advice you can count on, based on their:

- Insight into global trends, best practices and evolving regulations.
- Perspective on your industry and what your peers are doing.
- Skilled use of tools based on industry metrics to assess where your business is in its transformation lifecycle.
- Outcome and result focused.

### Real world experience

Our client advisors aren't just theorists. Each member of the team brings real-world experience, having spent years working as lawyers, project managers, integration experts, business analysts, IT professionals and marketing specialists before coming to LexisNexis Enterprise Solutions.

They'll combine that experience with extensive insight into LexisNexis Enterprise Solutions software, to help you implement the right solutions to power business transformation, and get the very best return on your investment.

### How we work with you

Our client advisors will work with you in the way that best meets your needs. They don't carry sales targets, their objectives are to build long-term relationships and solid foundations. The advice they provide is focused purely on your business challenges and objectives.

If you're at the start of your relationship with LexisNexis Enterprise Solutions, we'll engage with you to understand what you want to achieve from a business viewpoint, and work out the most appropriate software to help. We'll help you make the business case and work with you to break down any internal barriers to adoption.

If you're already experienced with our software, we're on hand to help ensure it's optimised to keep on supporting you as your business strategy evolves. We'll also alert you to new capabilities as they become available, and share your feedback and suggestions with the LexisNexis Enterprise Solutions development Team.

*"When it came to defining our new case and matter management system the business and technical advice given by the Client Advising Team was invaluable in getting the best out of our investment. Simon and his team worked with us to define a solution to help us transform our service delivery and leverage the power of the software. The collaboration with them enabled us to match our ideas and ambitions with industry best practice and the software's capabilities. We are now driving further enhancements working in partnership with them"*

Stacey Parkin, Operations Manager,  
Poole Alcock

### An integral part of your LexisNexis team

We believe our Client Advising Services are unique in the market: a valuable service that helps you drive transformation through alignment of your business, your software and your people.

The Client Advising Team is just one part of the great LexisNexis Enterprise Solutions Team you can call on. We work alongside your Relationship Manager and the LexisNexis Enterprise Solutions Support and Professional Services Teams to help ensure your LexisNexis solution will deliver maximum value to your business today, tomorrow and into the future.

### Next steps

If your business would benefit from our Client Advising Services, speak to your Account Manager.

They will then engage with the Head of Client Advising to discuss the support you're looking for, and assign the most appropriate Client Advisor to your project.

Meet the Team

**Simon Farthing**  
Director of Customer Engagement

As Head of Client Advising and Solutions Consulting I lead the team of six experienced Client Advisors. My mission is to work together with you in aligning your business strategy with the adoption and utilisation of our solutions. This is about a long term relationship where we work as part of your business and share our knowledge, experience and expertise to help you do more, better, and get greater return from your investment. The team bring many years of diverse experience of the Professional Services sector and coupled with the use of our solutions are skilled in helping you meet your aims.

I have been with LexisNexis for just over three years and have worked on a number of key strategic deals and significant client retention campaigns during that time. I am a Lawyer, Project Manager and Business Analyst. I have practiced in a number of different areas of law within a number of notable regional practices and headed IT, Development and Comms for a Top 100, 450 user Law Firm, in my time there implementing Visualfiles, iManage, Bighand, Artiion and Aderant solutions, to name a few.

**Claire Goldstone**  
Client Advisor, Visualfiles

Having initially joined Lexis Nexis Enterprise Solutions in 2013, spending nearly 2 years as a Senior Application Consultant within the Professional Services Team, I have recently returned to take on the role of Visualfiles Client Advisor. Prior to this I gained extensive understanding about how firms can successfully adopt and utilise Visualfiles from my 11 years working in-house at two top 100 law firms in roles which combined business analysis, project management and configuration of Visualfiles solutions.

During my time away from the legal realm I worked as a Senior Business Analyst for a multi-national avionics company working closely with clients, key stake holders and end users to improve and enhance messaging and tracking software solutions. I also have corporate and public sector experience having worked previously in project management roles within the Oil and Gas industry and at an Education Trust.

**Karl Southern**  
Client Advisor, Technical

In an IT career that has spanned well over twenty five years, I've spent time in consultancy, operations, product management and solutions design. As a Client Advisor, I am here to help you get the most from your systems and can bring that variety of experience with me to help you. Some of my colleagues have pointed out that I am a geek by nature so I do have a keen interest in all things technical. Particular areas of focus include integration and mobility. My spare time is taken up with walking (slowly), basketball (also slowly), and photography (excruciatingly slowly). Oh, I also maintain an extensive computer lab at home. The "geek" tag is probably well deserved.

**Tennille Roache**  
Client Advisor, InterAction APAC region

I have worked in marketing for professional service organisations for over 12 years in various roles, including event management, digital communications and operations. For the last eight years, I have focused specifically on InterAction, working with business development executives to align the database to business planning, key account programmes and marketing strategies. I also specialise in repositioning misunderstood (or failed) systems with business development teams and partnerships. At Lexis Nexis, I work with business development teams to adopt marketing and client relationship management techniques managed centrally through InterAction, to support the growth of professional service firms from domestic, office centric environments to connected global organisations. My aim is to help streamline your processes and successfully report client growth, value add and return on investment back to the business.

**Paul Tilling**  
Client Advisor, InterAction

I have over 25 years of experience working with law firms across the UK and Europe. Over the last 8 years I have focussed my career into learning and sharing how best to implement and use CRM to achieve collaborative and mutually supporting Business development processes at Law firms. I believe that my knowledge of InterAction coupled with an appreciation of what motivates lawyers and legal support personnel enables me to work effectively with law firms of all sizes who want to make the most of their CRM investment. I am passionate about helping law firms get the best return on their CRM investment and achieving their strategic goals with InterAction.

**Loreen Jamieson**  
Client Advisor, InterAction

My main focus is to provide clients with impartial and objective advice on how to incorporate InterAction into your business. I try and bring a different perspective on dealing with the many challenges of ensuring user adoption and aligning the system to business planning. I have worked for a large global law firm implementing InterAction across all offices, so have first-hand experience of dealing with the organisational change brought about by introducing a CRM system, along with the expectations that it can present. I have a deep understanding of technical, process and business issues within a law firm, having worked at all levels to roll out InterAction and manage other Marketing and Business Development Projects over a period of 15 years. This covered Partners, Lawyers, Secretaries, Senior Marketing and Business Development Managers along with their respective teams.
